

## **WHEN WILL I BE CALLED ON?**

Campaign volunteers are making home visits but it takes time to reach all of our households so you may not be called until later this month or next. Please be patient, you will be contacted. If you need to meet about the campaign sooner, please call the office and we will handle your pledge right away. If you would like to give something besides a cash pledge we have campaign material on non-cash gifts which might include trusts or the donation of appreciated assets. Give us a call and we will send it to you. We also have parishioners that are finance professionals who have offered their services to any family that needs to transfer appreciated or other types of assets to the building campaign without incurring professional fees.

You could also help by becoming a campaign volunteer and calling on other families. You select the families you will call on and you do not have to discuss dollar amounts with fellow parish families. The time commitment is only a few hours and the work is very rewarding. To get further information please call Robb Spence in the business office.
